## EDUCATION

Bachelor of Engineering Major in  
Urban planning

September 2008 — July 2013

Zhejiang University, Hangzhou China

PH.D. program continuous study for five years, rural and urban planning

PH.D. Candidate of rural and urban  
planning

September 2013 — Present

Zhejiang University, Hangzhou China

## HONORS AND AWARDS

- 2009 Excellent Social Practice Scholarship
- 2010 Excellent Social Practice Scholarship
- 2010 Outstanding Student Leader Awards
- 2011 Second-Class Scholarship for Outstanding Students
- 2011 Second-Class Scholarship for Outstanding Merits
- 2011 Outstanding Student Leader Awards
- 2011 Excellent Student Awards
- 2011 Second-Class Scholarship from Zhejiang University Education Foundation
- 2013 the First Prize of the “Challenge Cup” Undergraduate Curricular Academic Science and Technology Work Competition in Zhejiang University
- 2013 Excellent Graduation Thesis
- 2015 Excellent Graduate Student Awards
- 2015 Outstanding Graduate Student Leader Awards
- 2015 Excellent Social Work Scholarship

## UNDERGRADUATE RESEARCH EXPERIENCE

**Research on Humanism Space Vanished: a survey on the Humanity of Walking Space in the Street in Hangzhou.**

- Investigate the walking space in a block in Hangzhou, using the methods of questionnaire survey, observation and measuring.
- Start to pay attention to make a humanistic city.

**Research on the functional demands and spatial planning of creative industry parks in Gongshu district.**

- Investigate all the creative industry parks in Gongshu district and explore the demands of companies in those parks and build a planning model based on the research for those cities where there are industrial areas within the city.
- Get to focus on urban renewal and be able to summarize and build theoretical model.

**Research on the planning of the public libraries of Hangzhou main city**

- Investigate the public libraries in Hangzhou main city and put forward a more accurate radius for public libraries than specifications existed.
- Learn new approaches in analysis and consider the question that what makes a

better city.

RESEARCH  
EXPERIENCE

**Research on the computation model to extract the green space in built area**

- Classify the green space in built area based on the technical standards and build the computation model, taking Deqing as an example.
- Use GIS to analyze and extract the green space.

**Research and planning in Dongji Island**

- Explore the protection of reefs and take advantage of reef beach while developing. Focus on Low Impact Development and protect the ecological environment and biological diversity on the island.
- Make efforts on conservation of original island traditions and culture for sustainable development.

**Research on the revitalization of the industrial area in Wuyi city**

- Explore the way to analyze the land utilization efficiency with GIS and the strategies of revitalization of the industrial area.
- Pay attention to influence, challenge and coordination come up with urbanization on villages in and adjacent to the industrial area.

**Research on the housing condition of urban villages in Hangzhou**

- Investigate the population composition and density, public facilities, environment and architecture of an urban village to analyze the housing condition.

PUBLICATIONS

**Textbook named the Introduction Theory of Spatial Development, to be published in the near future**

- Contribute to two chapters: Urban Morphology and Architectural Typology, Urban Design and Guidelines, instructed by prof. HUA Chen and FU Shulan

**Study of China-Indonesia Cooperation: Lead to the Belt and Road Realization**

- Accepted by 14th APRU Doctoral Student Conference

WORK  
EXPERIENCE

Zhejiang University Ph.D. September 2013 — Present  
Organization (College of Civil  
Engineering and Architecture)

Advisor of undergraduates

- Join in Students Research Training Program (SRTP) as an advisor.
- Help undergraduates to do researches through their presentations.

Zhuren Magazine belong to College June 2014 — Present  
of Civil Engineering and  
Architecture, Zhejiang University

Chief editor

- Complete four editions of magazines and have several pieces of prose published
